

# Crescent Point

**Crescent Point Energy Corp. is a conventional oil and natural gas company with assets strategically focused in properties comprised of high quality, long life, operated light oil and natural gas reserves in Western Canada. Crescent Point strives to create sustainable, value added growth in reserves, production and cash flow through the execution of management's integrated strategy of acquiring, exploiting and developing reserves in the Western Canada Sedimentary Basin.**

**Crescent Point is currently seeking to fill the following position:**

**Job Title:** Junior Geologist  
**Location:** Calgary, Alberta  
**Reports to:** Vice President, Geoscience

The following will provide you with basic guidelines as to the duties required of this position.

## **Purpose:**

The primary function of the Junior Geologist will be to manage geological operations, evaluate and generate prospects within areas of responsibility and recommend appropriate company action to management.

## **Main Responsibilities & Activities:**

- Supervision and management of geological operations for drilling programs
- Initiate geological mapping projects including stratigraphic controls and structural elements and integrating appropriate geologic data to fully develop prospect concepts and justification
- Provide geological input for A&D evaluations
- Development of drillable prospects that can be added to the drilling inventory
- Development of growth opportunities through land acquisition and exploration
- Support prospect evaluation work by providing validation of pre-existing interpretations and play concepts as well as creating new interpretations

## **Knowledge, Skills & Abilities:**

- Bachelor's Degree in Geology
- 2 to 5 years of previous experience of geological and oil & gas experience
- Geological operations supervision, including horizontal well experience
- Project management skills are required
- Exploration and development mapping skills
- Must be a detail-oriented team player with excellent communication, analytical, organizational, and time management skills
- Strong computer skills with proficiency in Microsoft Office applications, plus geological applications such as Accumap, Geoscout or equivalent

**Only qualified candidates of interest will be contacted**
