Crescent Point's financial and operating results do not reflect the production or cash flows of Shelter Bay Energy Inc. ("Shelter Bay") other than the production and cash flows associated with Crescent Point's interests in the wells farmed out to Shelter Bay by Crescent Point. Crescent Point accounts for its investment in Shelter Bay using the equity method of accounting. Accordingly, Crescent Point records its share of Shelter Bay net income or loss in the "equity and other income" caption on the consolidated statements of operations, comprehensive income and deficit.

- (1) Funds flow from operations, payout ratio, net debt and operating netback as presented do not have any standardized meaning prescribed by Canadian generally accepted accounting principles and, therefore, may not be comparable with the calculation of similar measures presented by other entities.
- (2) The per share amounts (with the exception of per share dividends) are the per share – diluted amounts. Comparative amounts are Trust distributions and per trust unit – diluted.
- (3) Funds flow from operations for the first quarter of 2009 includes a \$69.0 million realized derivative gain on crystallization of various oil contracts.
- (4) Net income of \$27.6 million for the first quarter of 2010 includes unrealized derivative gains of \$12.3 million. The net loss of \$5.1 million for the first quarter of 2009 includes unrealized derivative losses of \$120.0 million and a \$69.0 million realized derivative gain on crystallization.
- (5) Net debt includes long-term debt, working capital and long term investments, but excludes risk management assets and liabilities.
- (6) Capital acquisitions represent total consideration for the transactions including bank debt and working capital assumed and, commencing January 1, 2010, excluding transaction costs.
- (7) The average selling prices reported are before realized derivatives and transportation charges.
- (8) The realized derivative gain for the first quarter of 2009 excludes a realized derivative gain on crystallization of \$69.0 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's discussion and analysis ("MD&A") is dated May 6, 2010 and should be read in conjunction with the unaudited consolidated financial statements for the three months ended March 31, 2010 and the audited consolidated financial statements and MD&A for the year ended December 31, 2009 for a full understanding of the financial position and results of operations of Crescent Point Energy Corp.

STRUCTURE OF THE BUSINESS

On July 2, 2009, Crescent Point Energy Trust ("Crescent Point" or the "Trust") and Wild River Resources Ltd. ("Wild River") completed a plan of arrangement (the "Wild River Arrangement") whereby the Trust unitholders exchanged their trust units for common shares in Wild River on a one-to-one basis thereby effectively converting the Trust into a corporation. In addition, pursuant to the Wild River Arrangement, the shares of Wild River were consolidated on a 0.1512 for one basis prior to the exchange, the Board of Directors and management team of Wild River were replaced with Crescent Point's existing Board of Directors and management team, and Wild River changed its name to Crescent Point Energy Corp. ("Crescent Point" or the "Company"). As a result of the Wild River Arrangement, the Trust was dissolved and Crescent Point Energy Corp. received all of the assets and assumed all of the liabilities of the Trust.

After completion of the Wild River Arrangement, the former unitholders of the Trust owned approximately 97 percent of the Company and the former shareholders of Wild River owned approximately 3 percent. In accordance with Canadian generally accepted accounting principles ("GAAP"), the Wild River Arrangement was accounted for as a reverse take-over, whereby the Trust was deemed to be the acquirer of Wild River. The consolidated financial statements have been prepared on a continuity of interest basis, which recognizes Crescent Point Energy Corp. as the successor entity to the Trust. As a result, in current and future financial statements and management's discussion and analysis ("MD&A"), Crescent Point will refer to common shares, shareholders and dividends which were formerly referred to as units, unitholders and distributions under the trust structure; comparative amounts will reflect the history of the Trust.

The principal undertakings of the Company are to carry on the business of acquiring and holding interests in petroleum and natural gas properties and assets related thereto through a general partnership and wholly owned subsidiaries.

Non-GAAP Financial Measures

Throughout this discussion and analysis, the Company uses the terms "funds flow from operations", "funds flow from operations per share", "funds flow from operations per share-diluted", "net debt", "netback", "operating netback", "market capitalization" and "total capitalization". These terms do not have any standardized meaning as prescribed by Canadian GAAP and, therefore, may not be comparable with the calculation of similar measures presented by other issuers.

Funds flow from operations is calculated based on cash flow from operating activities before changes in non-cash working capital, transaction costs and asset retirement obligation expenditures. Funds flow from operations per share-diluted is calculated based on cash flow from operating activities before changes in non-cash working capital, transaction costs and asset retirement obligation expenditures. Management utilizes funds flow from operations as a key measure to assess the ability of the Company to finance dividends, operating activities, capital expenditures and debt repayments. Funds flow from operations as presented is not intended to represent cash flow from operating activities, net earnings or other measures of financial performance calculated in accordance with Canadian GAAP.

The following table reconciles the cash flow from operating activities to funds flow from operations:

(\$000)	Three months ended March 31		
	2010	2009	% Change
Cash flow from operating activities	169,337	145,016	17
Changes in non-cash working capital	28,989	42,392	(32)
Transaction costs	5,075	-	-
Asset retirement expenditures	681	820	(17)
Funds flow from operations	204,082	188,228	8

Net debt is calculated as current liabilities plus long-term debt less current assets and long term investments but excludes risk management assets and liabilities. Management utilizes net debt as a key measure to assess the liquidity of the Company.

Netback is calculated on a per boe basis as oil and gas sales, less royalties, operating and transportation expenses and realized derivative gains and losses including derivative crystallizations. Operating netback is calculated as netback excluding gains and losses arising from derivative crystallizations. Operating netback and netback are used by management to measure operating results on a per boe basis to better analyze performance against prior periods on a comparable basis. Market capitalization is calculated by applying the period end closing share trading price to the number of shares outstanding. Market capitalization is an indication of the enterprise value. Total capitalization is calculated as market capitalization and current liabilities plus long-term debt, less current assets and long term investments, excluding risk management assets and liabilities. Total capitalization is used by management to assess the amount of debt leverage used in the Company's capital structure.

Forward-Looking Information

Cautionary Statement Regarding Forward-Looking Information and Statements

Certain statements contained in this report constitute forward-looking statements and are based on Crescent Point's beliefs and assumptions based on information available at the time the assumption was made. By its nature, such forward-looking information involves known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. The Company believes the expectations reflected in those forward-looking statements are reasonable but no assurance can be given that these expectations will prove to be correct and such forward-looking statements should not be unduly relied upon. These statements are effective only as of the date of this report.

Certain statements contained in this report, including statements related to Crescent Point's capital expenditures, projected asset growth, view and outlook toward future commodity prices, drilling activity and statements that contain words such as "could", "should", "can", "anticipate", "expect", "believe", "will", "may", "projected", "sustain", "continues", "strategy", "potential", "projects", "grow", "take advantage", "estimate", "well positioned" and similar expressions and statements relating to matters that are not historical facts constitute "forward-looking information" within the meaning of applicable Canadian securities legislation. The material assumptions in making these forward-looking statements are disclosed in this analysis under the headings "Dividends", "Capital Expenditures", "Asset Retirement Obligation", "Liquidity and Capital Resources", "Critical Accounting Estimates", "New Accounting Pronouncements" and "Outlook".

In particular, forward-looking information and statements include, but are not limited to:

- Crescent Point's 2010 guidance as outlined in the Outlook section;
- Maintaining monthly dividends; and
- Projected average net debt to 12 month funds flow of approximately 1.1 times.

All of the material assumptions underlying these statements are noted in the "Outlook" and "Liquidity and Capital Resources" sections of this report. All of the material risks underlying these statements are outlined below.

The following are examples of references to forward-looking information:

- Volume and product mix of Crescent Point's oil and gas production;
- Future oil and gas prices and interest rates in respect of Crescent Point's commodity risk management programs;
- The amount and timing of future asset retirement obligations;
- Future liquidity and financial capacity;
- Future interest rates;
- Future results from operations and operating metrics;
- Future development, exploration and other expenditures;
- Future costs, expenses and royalty rates;
- Future tax rates; and
- The Company's tax pools.

This disclosure contains certain forward-looking estimates that involve substantial known and unknown risks and uncertainties, certain of which are beyond Crescent Point's control. Therefore, Crescent Point's actual results, performance or achievement could differ materially from those expressed in, or implied by, these forward-looking estimates and if such actual results, performance or achievements transpire or occur, or if any of them do so, there can be no certainty as to what benefits Crescent Point will derive therefrom.

Crescent Point is exposed to several operational risks inherent in exploiting, developing, producing and marketing crude oil and natural gas. These risks include, but are not limited to:

- Uncertainties associated with estimating oil and natural gas reserves;
- Economic risk of finding and producing reserves at a reasonable cost;
- Incorrect assessments of the value of acquisitions and exploration and development programs;
- Failure to realize the anticipated benefits of acquisitions;
- Financial risk of marketing reserves at an acceptable price given market conditions;
- Volatility in market prices for oil and natural gas;
- Fluctuations in foreign exchange and interest rates;
- Stock market volatility;
- Uncertainties associated with partner plans and approvals;
- Operational matters related to non-operated properties;
- Delays in business operations, pipeline restrictions, blowouts;
- Debt service, indebtedness may limit timing or amount of dividends as well as market price of shares;

- *The continued availability of adequate debt and equity financing and cash flow to fund planned expenditures;*
- *Sufficient liquidity for future operations;*
- *Cost of capital risk to carry out the Company's operations;*
- *Unforeseen title defects;*
- *Aboriginal land claims;*
- *Increased competition for, among other things, capital, acquisitions of reserves and undeveloped lands;*
- *Competition for and availability of qualified personnel or management;*
- *Loss of key personnel;*
- *Uncertainties associated with regulatory approvals;*
- *Uncertainty of government policy changes;*
- *The risk of carrying out operations with minimal environmental impact;*
- *Unexpected geological, technical, drilling, construction and processing problems and availability of insurance;*
- *Industry conditions including changes in laws and regulations including the adoption of new environmental laws and regulations and changes in how they are interpreted and enforced;*
- *General economic, market and business conditions;*
- *Competitive action by other companies;*
- *The ability of suppliers to meet commitments;*
- *Obtaining required approvals of regulatory authorities;*
- *Financing the purchase of Shelter Bay in the event certain shareholders exercise their right to require Crescent Point to purchase the remaining Shelter Bay shares not owned by Crescent Point; and*
- *Uncertainties associated with credit facilities and counterparty credit risk.*

Crescent Point strives to manage or minimize these risks in a number of ways, including:

- *Employing qualified professional and technical staff;*
- *Concentrating in a limited number of areas with low cost exploitation and development objectives;*
- *Utilizing the latest technology for finding and developing reserves;*
- *Constructing quality, environmentally sensitive, safe production facilities;*
- *Maximizing operational control of drilling and producing operations;*
- *Mitigating price risk through strategic hedging;*
- *Adhering to conservative borrowing guidelines;*
- *Monitoring counterparty creditworthiness; and*
- *Obtaining counterparty credit insurance.*

A barrel of oil equivalent ("boe") is based on a conversion rate of six thousand cubic feet of natural gas to one barrel of oil.

Results of Operations

Production

	Three months ended March 31		
	2010	2009	% Change
Crude oil and NGL (bbls/d)	50,152	35,345	42
Natural gas (mcf/d)	35,456	26,098	36
Total (boe/d)	56,061	39,695	41
Crude oil and NGL (%)	89	89	-
Natural gas (%)	11	11	-
Total (%)	100	100	-

Production increased by 41 percent in the three months ended March 31, 2010 compared to the same 2009 period, primarily due to 2009 and 2010 acquisitions and the Company's successful drilling and fracture stimulation programs, partially offset by natural declines.

On January 15, 2010, Crescent Point completed the acquisition of assets in southwest Saskatchewan from Penn West Energy Trust ("Penn West") which added approximately 2,900 boe/d of high quality production, net of production associated with non-core properties exchanged as consideration.

Crescent Point's successful drilling program also contributed to the increase in production. During the first quarter of 2010, the Company drilled 75 (65.6 net) wells, focused primarily in the Viewfield Bakken resource play in southeast Saskatchewan and the Shaunavon resource play in southwest Saskatchewan.

The Company's weighting to oil in the three month period ending March 31, 2010 remained consistent with the comparative 2009 period.

Marketing and Prices

Average Selling Prices ⁽¹⁾	Three months ended March 31		
	2010	2009	% Change
Crude oil and NGL (\$/bbl)	75.98	47.61	60
Natural gas (\$/mcf)	4.95	5.17	(4)
Total (\$/boe)	71.10	45.80	55

(1) The average selling prices reported are before realized derivatives and transportation charges.

Benchmark Pricing	Three months ended March 31		
	2010	2009	% Change
WTI crude oil (US\$/bbl)	78.79	43.21	82
WTI crude oil (Cdn\$/bbl)	82.07	54.01	52
AECO natural gas ⁽¹⁾ (Cdn\$/mcf)	4.96	4.96	-
Exchange rate – US\$/Cdn\$	0.96	0.80	20

(1) The AECO natural gas price reported is the average daily spot price.

The Company's average selling price for oil increased from \$47.61 per bbl in the first quarter of 2009 to \$75.98 per bbl in the first quarter of 2010, primarily due to the 82 percent increase in the US\$ WTI benchmark partially offset by a stronger Canadian dollar. Crescent Point's oil differential for the three months ended March 31, 2010 was \$6.09 per bbl compared to \$6.40 per bbl for the same period in 2009. The Company's oil differential as a percent of Cdn\$ WTI was 7 percent in the first quarter of 2010 compared to 12 percent in the first quarter of 2009, consistent with the decrease in the light and medium sour blend market differentials as a percentage of Cdn\$ WTI.

The Company's average selling price for gas decreased 4 percent to \$4.95 per mcf in the first quarter of 2010 from \$5.17 per mcf in the first quarter of 2009 which is consistent with the AECO daily benchmark gas price.

Derivatives and Risk Management

The following is a summary of the realized derivative gains (losses) on oil and gas contracts:

(\$000, except per boe and volume amounts)	Three months ended March 31		
	2010	2009	% Change
Average crude oil volumes hedged (bbls/d)	22,078	16,000	38
Crude oil realized derivative gain (loss) per bbl	(835) (0.18)	34,466 10.83	(102) (102)
Average natural gas volumes hedged (GJ/d)	6,000	-	-
Natural gas realized derivative gain per mcf	439 0.14	-	-
Average barrels of oil equivalent hedged (boe/d)	23,026	16,000	44
Operating realized derivative gain (loss) per boe	(396) (0.08)	34,466 9.65	(101) (101)
Derivative crystallization gain per boe	-	68,985 19.31	(100) (100)
Total realized derivative gain (loss) per boe	(396) (0.08)	103,451 28.96	(100) (100)

Management of cash flow variability is an integral component of Crescent Point's business strategy. Changing business conditions are monitored regularly and reviewed with the Board of Directors to establish risk management guidelines used by management in carrying out the Company's strategic risk management program. The risk exposure inherent in movements in the price of crude oil and natural gas, fluctuations in the US/Cdn dollar exchange rate, changes in the price of power and interest rate movements on long-term debt are all proactively managed by Crescent Point through the use of derivatives with investment grade counterparties. The Company considers these derivative contracts to be an effective means to manage cash flow.

The Company's crude oil and natural gas derivatives are referenced to WTI and AECO, unless otherwise noted. Crescent Point utilizes a variety of derivatives including swaps, collars and put options to protect against downward commodity price movements while providing the opportunity for some upside participation during periods of rising prices.

The Company recorded a realized derivative loss of \$0.4 million for the three months ended March 31, 2010, compared to a total gain of \$103.5 million in the same 2009 period. The total derivative gain in the three months ended March 31, 2009 consists of operating realized derivative gains of \$34.5 million and \$69.0 million of realized derivative gains resulting from the derivative reset program which is discussed below.

The Company's operating realized derivative loss for oil was \$0.8 million for the first quarter of 2010, compared to a gain of \$34.5 million for the same period in 2009. The loss is primarily attributable to the increase in the Cdn\$ WTI benchmark price over the same period in 2009. In the three months ended March 31, 2010, the Cdn\$ WTI benchmark price increased 52 percent, while the Company's average derivative oil price increased 5 percent or \$3.71 per barrel, from \$77.94 per barrel in 2009 to \$81.65 per barrel in 2010.

The Company's gain in the three month period ended March 31, 2009 pursuant to its derivative mark-to-market crystallization and reset program ("derivative crystallization") announced March 4, 2009 was \$69.0 million. The Company crystallized a portion of its forward market gains on swaps and collars for 2010, 2011 and 2012 and reset the hedges using swaps at then current market prices.

The Company has not designated any of its risk management activities as accounting hedges under the Canadian Institute of Chartered Accountants (the "CICA") section 3855 and, accordingly, has marked to market its derivatives.

The Company's unrealized derivative gain for first quarter of 2010 was \$12.3 million compared to an unrealized loss of \$120.0 million for the same period in 2009. The gain for the first quarter of 2010 is primarily attributable to the decrease in the Cdn\$ WTI forward benchmark price at March 31, 2010 compared to December 31, 2009. The unrealized derivative loss in the three months ended March 31, 2009 was primarily the result of the derivative crystallization program and the increase in the forward Cdn\$ benchmark prices at March 31, 2009 compared to December 31, 2008.

Crescent Point's risk management policy allows for hedging a forward profile of 3½ years, and up to 65 percent net of royalty interest production.

Revenues

(\$000) ⁽¹⁾	Three months ended March 31		% Change
	2010	2009	
Crude oil and NGL sales	342,936	151,459	126
Natural gas sales	15,794	12,148	30
Revenues	358,730	163,607	119

(1) Revenue is reported before transportation charges and realized derivatives.

Crude oil and NGL sales increased 126 percent, from \$151.5 million in the first quarter of 2009 to \$342.9 million in the first quarter of 2010 primarily due to the 60 percent increase in realized prices and the 42 percent increase in production. The increase in realized prices is largely a result of the significant increase in US\$ WTI benchmark price and narrowing differentials as compared to the same period in 2009, partially offset by a stronger Canadian dollar. The increased production in 2010 is due to the acquisitions completed in 2009 and 2010 and the Company's successful drilling program.

Natural gas sales increased 30 percent in the three month period ended March 31, 2010 compared to the same period in 2009. The increase is primarily due to the 36 percent increase in production as compared to the same period in 2009 largely due to gas production acquired through capital acquisitions, partially offset by a slight decrease in realized prices.

Transportation Expenses

(\$000, except per boe amounts)	Three months ended March 31		% Change
	2010	2009	
Transportation expenses	9,029	5,944	52
Per boe	1.79	1.66	8

Transportation expense per boe increased 8 percent in the three month period ended March 31, 2010 compared to the same period in 2009. This increase is primarily due to increased production volumes in the Shaunavon area which require trucking to terminals until the Company's gathering system infrastructure is expanded.

Royalty Expenses

(\$000, except per boe amounts)	Three months ended March 31		% Change
	2010	2009	
Royalties	63,958	25,954	146
As a % of oil and gas sales	18	16	2
Per boe	12.68	7.26	75

Royalties increased by 146 percent for the three month period ending March 31, 2010 compared to the same period in 2009 largely due to the 119 percent increase in revenues and the increase in royalties as a percentage of sales. Royalties as a percentage of sales increased 2 percent for the three month period ended March 31, 2010 primarily due to the impacts of increased WTI benchmark prices on Crown royalty formulas.

Operating Expenses

(\$000, except per boe amounts)	Three months ended March 31		% Change
	2010	2009	
Operating expenses	53,072	29,125	82
Per boe	10.52	8.15	29

Operating expenses per boe increased 29 percent in the three month period ended March 31, 2010 compared to the same period in 2009. This increase is primarily due to the operating cost structure associated with the Company's growing production from the Shaunavon resource play. Operating costs per boe in the Shaunavon resource play are expected to decrease as the Company's infrastructure and production in the area grows.

Netbacks

	Three months ended March 31				
	2010			2009	
	Crude Oil and NGL (\$/bbl)	Natural Gas (\$/mcf)	Total (\$/boe)	Total (\$/boe)	% Change
Average selling price	75.98	4.95	71.10	45.80	55
Royalties	(13.56)	(0.86)	(12.68)	(7.26)	75
Operating expenses	(10.94)	(1.17)	(10.52)	(8.15)	29
Transportation	(1.69)	(0.43)	(1.79)	(1.66)	8
Netback prior to realized derivatives	49.79	2.49	46.11	28.73	60
Realized gain (loss) on derivatives	(0.18)	0.14	(0.08)	9.65	(101)
Operating netback	49.61	2.63	46.03	38.38	20
Realized gain on derivative crystallization	-	-	-	19.31	(100)
Netback	49.61	2.63	46.03	57.69	(20)

The Company's operating netback for the three months ended March 31, 2010 increased 20 percent to \$46.03 per boe from \$38.38 per boe in the first quarter of 2009. The increase in the Company's operating netback is primarily the result of the increase in the average selling price related to the increase in the US\$ WTI benchmark price, partially offset by increases in royalty expenses, operating expenses, transportation expenses and a realized loss on derivatives in the first quarter of 2010 compared to a realized gain in the first quarter of 2009.

General and Administrative Expenses

(\$000, except per boe amounts)	Three months ended March 31		
	2010	2009	% Change
General and administrative costs	15,785	7,197	119
Capitalized	(2,653)	(2,301)	15
General and administrative expenses	13,132	4,896	168
Transaction costs	(5,075)	-	-
General and administrative expenses, excluding transaction costs	8,057	4,896	65
Per boe	1.60	1.37	17

General and administrative expenses increased 65 percent in the first quarter of 2010 compared to the same period in 2009. This increase is primarily due to increased employee costs and rent as a result of growth of the Company.

Transaction costs incurred in the first quarter of 2010 relate to the assets acquired from Penn West and the advisory costs incurred on the issuance of the senior guaranteed notes. As a result of adopting CICA Handbook section 1582 "Business Combinations" effective January 1, 2010, the Company records related transaction costs as general and administrative expenses.

Restricted Share Bonus Plan

Stock-based compensation expense (\$000, except per boe amounts)	Three months ended March 31		
	2010	2009	% Change
Stock-based compensation costs	19,924	21,209	(6)
Capitalized	(4,456)	-	-
Stock-based compensation expense	15,468	21,209	(27)
Per boe	3.07	5.94	(48)

The Company has a Restricted Share Bonus Plan and under the terms of this plan, the Company may grant restricted shares to directors, officers, employees and consultants. Restricted shares vest at 33 $\frac{1}{3}$ percent on each of the first, second and third anniversaries of the grant date or at a date approved by the Board of Directors. Restricted shareholders are eligible for monthly dividends immediately upon grant.

Under the Restricted Share Bonus Plan, the Company is authorized to issue up to 11,000,000 shares. The Company had 4,079,268 restricted shares outstanding at March 31, 2010 compared with 2,390,252 restricted units outstanding at March 31, 2009.

The Company recorded stock-based compensation expense of \$15.5 million in the first quarter of 2010, based on the fair value of the shares on the date of the grant. Stock-based compensation expense decreased 27 percent for the three month period ended March 31, 2010 compared to the same period in 2009 due primarily to the restricted units awarded in the first quarter of 2009 to employees of the Company in conjunction with the 2008 special bonus award, partially offset by an increase in the number of employees and an increase in the Company's share price in the three months ended March 31, 2010 compared to the same period in 2009.

The Company capitalized \$4.5 million of stock-based compensation in the three months ended March 31, 2010.

Interest Expense

(\$000, except per boe amounts)	Three months ended March 31		
	2010	2009	% Change
Interest expense	13,738	7,110	93
Per boe	2.72	1.99	37

Interest expense increased 93 percent in the first quarter of 2010 compared to the same period in 2009. This increase is largely attributable to fees relating to the renewal and extension of the Company's credit facility and a higher average debt balance. The higher average debt balance is largely due to the Company's 2009 and 2010 property acquisitions, partially offset by 2009 equity financings.

Crescent Point actively manages exposure to fluctuations in interest rates through interest rate swaps, short term banker's acceptances and issuance of fixed rate senior guaranteed notes; refer to Derivatives and Risk Management section above.

Depletion, Depreciation and Amortization

(\$000, except per boe amounts)	Three months ended March 31		
	2010	2009	% Change
Depletion, depreciation and amortization	151,549	88,165	72
Per boe	30.04	24.68	22

The depletion, depreciation and amortization ("DD&A") rate increased by 22 percent to \$30.04 per boe for the three months ended March 31, 2010 from \$24.68 in the same period of 2009. The increase is largely a result of the Company's consolidating acquisitions completed in 2009 and 2010.

Taxes

(\$000)	Three months ended March 31		
	2010	2009	% Change
Capital and other tax expense	6,614	2,296	188
Future income tax expense (recovery)	11,465	(33,856)	(134)

Capital and Other Tax Expense

Capital and other tax expense consists of Saskatchewan Corporation Capital Tax Resource Surcharge. Capital and other tax expense for the first quarter of 2010 increased 188 percent over 2009 largely due to increases in the Company's Saskatchewan based revenue as a result of acquisitions completed during 2009, the Company's development drilling program and an increase in the Company's realized oil price.

Future Income Tax Expense

In the first quarter of 2010, the Company reported a future tax expense of \$11.5 million compared to a future tax recovery of \$33.9 million in the first quarter of 2009. The expense in the first quarter of 2010 relates primarily to the increase in taxable temporary differences.

Funds Flow, Cash Flow and Net Income (Loss)

(\$000, except per share amounts) ⁽¹⁾	Three months ended March 31		% Change
	2010	2009	
Funds flow from operations	204,082	188,228	8
Funds flow from operations per share – diluted ⁽¹⁾	0.96	1.36	(29)
Cash flow from operating activities	169,337	145,016	17
Cash flow from operating activities per share – diluted ⁽¹⁾	0.79	1.04	(24)
Net income (loss)	27,609	(5,146)	637
Net income (loss) per share – diluted ⁽¹⁾	0.13	(0.04)	425

(1) Comparative amounts are per trust unit

Funds flow from operations increased to \$204.1 million in the first quarter of 2010 from \$188.2 million in the first quarter of 2009 and decreased to \$0.96 per share – diluted from \$1.36 per share – diluted, respectively. The increase in funds flow from operations is primarily the result of increases in the operating netback and production volumes. The operating netback increased as a result of the higher average selling price related to the increase in the US\$ WTI benchmark price, partially offset by higher royalty expenses, operating expenses and transportation expenses and a realized loss on derivatives in the first quarter of 2010 compared to a realized gain in the first quarter of 2009. The funds flow from operations in the first quarter of 2009 includes a \$69.0 million realized derivative gain in crystallization of various oil contracts. The decrease in funds flow from operations per share – diluted is partly due to the impact of the \$69.0 million realized derivative gain in the first quarter of 2009; excluding this gain, the funds flow from operations would have been \$0.86 per share – diluted.

Cash flow from operating activities for the first quarter of 2010 increased to \$169.3 million from \$145.0 million in the first quarter of 2009 for the same reasons discussed above, as well as due to fluctuations in working capital. Cash flow from operating activities per share – diluted decreased 24 percent to \$0.79 per share – diluted in the first quarter of 2010 for the same reasons discussed above.

Net income for the first quarter of 2010 of \$27.6 million increased from a net loss of \$5.1 million in 2009 largely as a result of the unrealized derivative gain of \$12.3 as compared to an unrealized derivative loss of \$120.0 million in 2009, partially offset by increases in DD&A and future tax expense.

As noted in the Derivatives and Risk Management section, the Company has not designated any of its risk management activities as accounting hedges under the CICA Handbook section 3855 and, accordingly, has marked to market its derivatives and records the result to the statement of operations.

Crescent Point uses financial derivatives, including swaps, costless collars and put options, to reduce the volatility of the selling price of its crude oil and natural gas production. This provides a measure of stability to the Company's cash flows and dividends over time.

The Company's derivatives portfolio extends out 3½ years from the current quarter.

The CICA Handbook section 3855 "Financial Instruments – Recognition and Measurement", gives guidelines for mark to market accounting for financial derivatives. Financial derivatives that have not settled during the current quarter are marked to market each quarter. The change in mark to market from the previous quarter represents a gain or loss that is recorded on the income statement. As such, if benchmark oil and natural gas prices rise during the quarter, the Company records a loss based on the change in price multiplied by the volume of oil and natural gas hedged. If prices fall during the quarter, the Company records a gain. The prices used to record the actual gain or loss are subject to an adjustment for volatility, then the resulting gain (asset) or loss (liability) is discounted to a present value using a risk-free rate adjusted for counterparty risk.

Crescent Point's underlying physical reserves are not marked to market each quarter, hence no gain or loss associated with price changes is recorded; the Company realizes the benefit/detriment of any price increase/decrease in the period which the physical sales occur.

The Company's financial results should be viewed with the understanding that the future gain or loss on financial derivatives is recorded in the current period's results, while the future value of the underlying physical sales is not.

Dividends

The following table provides a reconciliation of dividends:

(\$000, except per share amounts) ⁽¹⁾	Three months ended March 31		
	2010	2009	% Change
Accumulated dividends, beginning of period	1,313,689	860,371	53
Dividends declared to shareholders	146,924	97,990	50
Accumulated dividends, end of period	1,460,613	958,361	52
Accumulated dividends per share, beginning of period	15.03	12.27	22
Dividends to shareholders per share	0.69	0.69	-
Accumulated dividends per share, end of period	15.72	12.96	21

(1) Amounts prior to July 2, 2009 were distributions of trust units. Dividends reflect the sum of the amounts declared monthly, as a trust or a corporation, since Crescent Point's inception in 2003.

The Company maintained monthly dividends of \$0.23 per share during the first quarter of 2010.

Dividends increased 50 percent in the first quarter of 2010 compared to the same period in 2009. The increase in dividends relates to an increase in the number of shares outstanding, resulting from the Wild River, Gibraltar Exploration Ltd., Wave Energy Ltd. and TriAxon Resources Ltd. ("TriAxon") acquisitions in 2009, the bought deal financings which closed in September and November 2009 and the DRIP program.

Crescent Point believes it is well positioned to maintain monthly dividends as the Company continues to exploit and develop its resource plays. Crescent Point's risk management strategy minimizes exposure to commodity price volatility and provides a measure of sustainability to dividends through periods of fluctuating market prices.

Investments in Marketable Securities

In the fourth quarter of 2007, Crescent Point received 1.5 million shares of a publicly traded exploration and production company for \$1.00 per share or \$1.5 million in connection with a disposition of properties. The Company continues to hold these shares and recorded an unrealized loss of less than \$0.1 million in the three month ended March 31, 2010, consistent with the \$0.1 million unrealized loss recorded in 2009.

Long-Term Investments

a) Reliable Energy Ltd.

In October 2009, the Company purchased 32.2 million common shares in Reliable Energy Ltd. The investment is classified as held-for-trading and is marked to market with the resulting gain or loss being recorded in the statement of operations. The investment is recorded at fair value which is \$5.5 million more than the original cost of the investment.

b) Private Oil and Gas Company

In October 2009, the Company purchased 5.3 million common shares in a private oil and gas company for \$8.0 million. The investment is classified as available for sale and measured at cost.

c) Shelter Bay Energy Inc.

During the first quarter of 2008, the Company invested in Shelter Bay, a private oil company. At March 31, 2010, the Company's investment of \$200.4 million consisted of 173.9 million Class A Common Shares, representing an interest of 21 percent, plus the accumulated equity earnings of \$7.7 million.

Under the terms of the unanimous shareholders' agreement governing Shelter Bay (the "Shelter Bay USA"), the Company has a right to purchase all, but not less than all, of the shares of Shelter Bay not already owned by the Company (the "Call Right") at a price equal to the market value of the shares; the determination of market value is based on a defined calculation as outlined in the Shelter Bay USA. The Call Right is exercisable at (i) any time before April 1, 2011, provided that the proceeds from such a transaction (including cumulative distributions) would result in the initial investors in Shelter Bay receiving realized proceeds equal to at least two times the amount of the aggregate capital invested by the initial investors and Crescent Point in Shelter Bay, or (ii) any time on or after April 1, 2011 and on or before March 31, 2013.

Upon exercise of the Call Right, and acceptance by 66 2/3 percent or greater of the shares held by Shelter Bay shareholders (excluding Crescent Point), Crescent Point will have the right to acquire all of the Shelter Bay shares it does not own. In the event of acceptance by less than 66 2/3 percent of the shares held by Shelter Bay shareholders (excluding Crescent Point), Crescent Point shall have the right to purchase all of the assets (the "Asset Call Right") of Shelter Bay for 105 percent of the market value of the assets, as defined in the Shelter Bay USA.

In the event Crescent Point exercises its Call Right or Asset Call Right, Shelter Bay's Class B and C Common Share shareholders will be entitled to receive 100 percent of all proceeds from the sale transaction up to their original investment in Shelter Bay plus a 10 percent return on investment. Class A Common Share shareholders would then receive 100 percent of their original investment in Shelter Bay plus a 10 percent return on investment. Subsequent proceeds up to and until a 25 percent return on investment to all Shelter Bay Common Shareholders, would be shared on a pro rata basis by shareholders in accordance with the number of shares held by each shareholder. Following receipt of a 25 percent return on investment by all Shelter Bay Common Shareholders, the remaining proceeds would be shared 50 percent by Crescent Point and 50 percent by all Shelter Bay Common Shareholders on a pro rata basis.

As at March 31, 2010, no conditions exist which would require the Company to record a liability pursuant to the Shelter Bay USA.

Also under the Shelter Bay USA, between April 1, 2013 and September 30, 2013, certain Shelter Bay shareholders shall have a separate right to require that Crescent Point acquire all of the shares of Shelter Bay then owned by such shareholder (the "Put Right") for a purchase price equal to 85 percent of the market value of such shares; the determination of market value is based on a defined calculation as outlined in the Shelter Bay USA. If the Put Right is exercised, Crescent Point will be obligated to provide all of the other shareholders in Shelter Bay with a similar right to put their shares to Crescent Point on the same terms.

The purchase price for the Shelter Bay shares may be settled, at Crescent Point's election, in cash or the issuance of Crescent Point shares; however, the Shelter Bay shareholders shall have certain rights to receive their consideration for their Shelter Bay shares in the form of Crescent Point shares.

Given the terms of the Shelter Bay USA, there can be no assurance that Crescent Point will not be required to, or will not elect to purchase the shares of Shelter Bay not already owned by Crescent Point or the assets of Shelter Bay and further, there can be no assurance that Crescent Point will have the capital resources to satisfy such Call Right or Put Right or that it will be able to issue Crescent Point shares to Shelter Bay shareholders in association with the exercise of the Call Right or Put Right described herein, and which issuance may be dilutive to existing Crescent Point shareholders at such time.

Related Party Transactions

The following related party transactions occurred between Crescent Point and Shelter Bay during the first quarter of 2010:

- *Management and Technical Services Agreement* – Crescent Point entered into a Management and Technical Services Agreement with Shelter Bay, effective January 11, 2008 through December 31, 2012, with both early termination and extension provisions. Crescent Point is responsible for managing, administering and operating the assets and business of Shelter Bay. The services are provided in exchange for a monthly management fee. The Company billed management fees to Shelter Bay of \$1.3 million for the first quarter of 2010 (2009 - \$0.8 million).
- *Farm-Out Agreement* – Effective January 11, 2008, Crescent Point entered into a farm-out agreement with Shelter Bay. Under the agreement, Shelter Bay has the right to farm-in on 22 net sections of Viewfield Bakken lands owned by the Company. Shelter Bay is responsible for paying 100 percent of the capital costs and earns a 50 percent interest in production from the property, while the Company retains the other 50 percent production interest. This agreement gives Crescent Point the means to drill the undeveloped land and receive 50 percent of the production for no capital cost or risk. During the three months ended March 31, 2010, Shelter Bay drilled 4 gross wells on lands farmed out by the Company.
- *Amounts Owning From / Due To* – At March 31, 2010, Shelter Bay owed the Company \$7.5 million for joint venture billings and management fees. These receivables were collected by the Company at the end of April 2010.

Capital Expenditures

Major Property Acquisitions and Dispositions

Penn West Assets

On January 15, 2010 Crescent Point completed the acquisition of certain assets in southwest Saskatchewan from Penn West Energy Trust. Total consideration paid included Crescent Point's 100 percent working interest in the Pembina Cardium play acquired through the Company's arrangement with TriAxon, a 50 percent working interest in Crescent Point's Dodsland Viking play and \$440.1 million cash including interim adjustments.

Southeast Saskatchewan Assets

On January 25, 2010 Crescent Point completed the acquisition of assets in southeast Saskatchewan for cash consideration of approximately \$28.7 million.

Southwest Saskatchewan Assets

On March 23, 2010 Crescent Point completed the acquisition of assets in southwest Saskatchewan for cash consideration of approximately \$67.7 million.

b) Minor Property Acquisitions and Dispositions

Minor property acquisitions, dispositions and purchase price adjustments during the three months ended March 31, 2010 amounted to adjustments to property, plant and equipment of \$17.5 million.

Development Capital

(\$000)	Three months ended March 31		
	2010	2009	% Change
Capital acquisitions (net) ⁽¹⁾	554,065	136,964	305
Development capital expenditures	174,099	66,276	163
Capitalized administration	7,109	2,301	209
Office equipment	1,737	485	258
Total	737,010	206,026	258

(1) Capital acquisitions represent total consideration for the transactions including bank debt, working capital assumed and, commencing January 1, 2010, excluding transaction costs.

The Company's development capital expenditures for the first quarter of 2010 were \$174.1 million compared to \$66.3 million for the same period in 2009. In the first quarter of 2010, 75 (65.6 net) wells were drilled with a success rate of 100 percent. The development capital for the quarter included \$52.5 million on facilities, land and seismic.

Crescent Point's budgeted capital program for 2010 is approximately \$625 million, not including acquisitions. The Company searches for opportunities that align with strategic parameters and evaluates each prospect on a case-by-case basis.

Goodwill

The goodwill balance of \$100.3 million as at March 31, 2010 is attributable to the corporate acquisitions of TriAxon Resources Ltd., Tappit Resources Ltd., Capio Petroleum Corporation and Bulldog Energy Inc. during the period 2003 through 2009.

Reclamation Fund

Crescent Point established a reclamation fund for future asset retirement obligation costs and environmental emissions reduction costs. The Company contributes \$0.30 per produced boe to the fund, of which \$0.15 per boe is for future asset retirement obligation costs and \$0.15 per boe is for environmental emissions reduction costs.

The reclamation fund increased by \$0.3 million during the first quarter of 2010 due to contributions of \$1.5 million, partially offset by expenditures of \$1.2 million. The expenditures of \$1.2 million pertained to activities that were undertaken during the quarter toward abandonment of wells and facilities, engineering and procurement of equipment to install an amine sweetening unit at an existing facility in the Sounding Lake area which conserves and sweetens sour solution gas and reduces emissions, and environmental work in the Viewfield area.

Asset Retirement Obligation

The asset retirement obligation increased by \$10.2 million during the first quarter of 2010. This increase relates to liabilities of \$6.4 million as a result of capital acquisitions, \$1.7 million recorded in respect of drilling and \$2.8 million of accretion expense, partially offset by liabilities settled of \$0.7 million.

Liquidity and Capital Resources

Capitalization Table (\$000, except share, per share and percent amounts)	March 31, 2010	December 31, 2009
Long-term debt	1,118,975	519,127
Working capital ⁽¹⁾	(144,113)	(148,190)
Net debt	974,862	370,937
Shares outstanding ⁽²⁾	211,868,868	209,389,932
Market price at end of period (per share)	38.97	39.49
Market capitalization	8,256,530	8,268,808
Total capitalization	9,231,392	8,639,745
Net debt as a percentage of total capitalization (%)	11%	4%
Annual funds flow from operations ⁽³⁾	688,749	672,895
Net debt to funds flow from operations ⁽⁴⁾	1.4	0.6

(1) Working capital is calculated as current assets less current liabilities, excluding risk management assets and liabilities, plus long-term investments.

(2) Common shares outstanding balance at March 31, 2010 includes 758,631 common shares issued on April 15, 2010 pursuant to the DRIP program.

(3) Annual funds flow from operations is calculated using trailing four quarters of funds flows.

(4) The net debt reflects the financing of acquisitions, however the funds flow from operations only reflects funds flow from operations generated from the acquired properties since the closing dates of the acquisitions.

The Company's long-term debt consists of bank credit facilities and senior guaranteed notes.

The Company has a syndicated credit facility with twelve banks and an operating credit facility with one Canadian chartered bank totaling \$1.6 billion. As at March 31, 2010, the Company had \$804.9 million drawn on bank credit facilities, leaving unutilized borrowing capacity of \$795.1 million. The credit facility has a maturity date of May 2011.

On March 24, 2010 the Company closed a private offering of senior guaranteed notes raising gross proceeds of US\$260.0 million and CDN\$50.0 million. These notes rank pari passu with the Company's bank credit facilities and are unsecured with terms of maturity from 5 to 10 years. Concurrent with the issuance of the US\$260.0 million senior guaranteed notes, the Company entered into cross currency interest rate swaps ("CCIRS") with a syndicate of financial institutions. Under the terms of the swaps, the amount of the notes was fixed for purposes of interest and principal repayments at a notional amount of CDN\$265.5 million and a weighted average CDN\$ interest rate of 5.94%.

At March 31, 2010, Crescent Point was capitalized with 89 percent equity, a 7 percent decrease from December 31, 2009, primarily due to the increased net debt of the Company. The Company's net debt to funds flow from operations ratio at March 31, 2010 was 1.4 times (December 31, 2009 - 0.6 times). This increase is largely due to the favorable impact of the November 3, 2009 equity financing on the 2009 ratio and timing of the deployment of the cash as consideration in the acquisition of assets from Penn West which closed on January 15, 2010. Crescent Point's projected average net debt to 12 month cash flow is approximately 1.1 times.

In March 2010, the Company closed a private offering of senior guaranteed notes raising gross proceeds of US\$260.0 million and CDN\$50.0 million, and in 2009, the Company completed a total of \$1.2 billion in equity financings. These financings highlight the high quality nature of the asset base and demonstrate the ability of Crescent Point to consistently secure adequate capital and maintain liquidity, positioning it for the opportunities that lie ahead. At March 31, 2010, the Company also had \$1.6 billion of bank credit facilities with \$795.1 million available. Crescent Point has significant liquidity available to meet its short and medium term needs.

Crescent Point's development capital budget for 2010 was revised in May 2010 to \$625 million, with average 2010 production forecast at 57,250 boe/d.

Crescent Point's management believes that with the high quality reserve base and development inventory, excellent balance sheet and solid hedging program, the Company is well positioned to continue generating strong operating and financial results through 2010 and beyond.

Shareholders' Equity

At March 31, 2010, Crescent Point had 211.9 million common shares issued and outstanding compared to 209.4 million shares at December 31, 2009. The increase of 2.5 million shares relates primarily to shares issued pursuant to the DRIP program during the first quarter of 2010 for proceeds of \$84.3 million.

Crescent Point's total capitalization increased to \$9.2 billion at March 31, 2010 compared to \$8.6 billion at December 31, 2009, with the market value of the shares representing 89 percent of the total capitalization. The increase in capitalization is attributable to the increase in the number of shares outstanding and an increase in net debt.

Critical Accounting Estimates

The preparation of the Company's financial statements requires management to adopt accounting policies that involve the use of significant estimates and assumptions. These estimates and assumptions are developed based on the best available information and are believed by management to be reasonable under the existing circumstances. New events or additional information may result in the revision of these estimates over time. A summary of the significant accounting policies used by Crescent Point can be found in Note 2 to the December 31, 2009 consolidated financial statements.

New Accounting Pronouncements

As of January 1, 2010, the Company adopted the following CICA Handbook standards:

- "Business Combinations", Section 1582, which replaces the previous business combinations standard. The standard requires assets and liabilities acquired in a business combination, contingent consideration and certain acquired contingencies to be measured at their fair values as of the date of acquisition. In addition, acquisition-related and restructuring costs are recognized separately from the business combination and are included in the statement of operations. The adoption of this standard impacts the accounting treatment of business combinations entered into after January 1, 2010.
- "Consolidated Financial Statements", Section 1601, which together with Section 1602 below, replace the former consolidated financial statements standard. Section 1601 establishes the requirements for the preparation of consolidated financial statements. The adoption of this standard has had no material impact on Crescent Point's financial statements.
- "Non-controlling Interests", Section 1602, which establishes the accounting for a non-controlling interest in a subsidiary in consolidated financial statements subsequent to a business combination. The standard requires a non-controlling interest in a subsidiary to be classified as a separate component of equity. In addition, net earnings and components of other comprehensive income are attributed to both the parent and non-controlling interest. The adoption of this standard has had no material impact on Crescent Point's financial statements.

Future Accounting Pronouncements

International Financial Reporting Standards (IFRS)

In 2008, the Accounting Standards Board confirmed that the transition date to International Financial Reporting Standards ("IFRS") from Canadian GAAP will be January 1, 2011 for publicly accountable enterprises. Therefore, the Company will report its results in accordance with IFRS starting in 2011, with comparative IFRS information for the 2010 fiscal year.

The Company is assessing the potential impacts of this changeover and has developed its implementation plan accordingly. The quantitative impact on our future financial position and results of operations is not reasonably determinable now, however, we expect the highest impact will be in the following areas:

- Property, plant and equipment:
 - o Exploration and Evaluation assets ("E&E"):
 - The Company's undeveloped land balance as at December 31, 2009 will be the largest component of the opening balance of E&E at January 1, 2010. This and any other exploratory assets will be separately disclosed on the balance sheet and in the notes to the financial statements.
 - E&E assets will not be amortized or depleted.
 - E&E assets will be assessed for impairment on January 1, 2010, and thereafter, when amounts are transferred to Development assets and when indicators exist. For impairment testing, E&E assets are combined with Development assets; the excess of carrying amount over recoverable amount is expensed in the period of impairment.
 - o Development assets
 - The Company's net book value of property plant and equipment excluding E&E as at December 31, 2009 will be the opening cost of Development assets at January 1, 2010. This amount was allocated, based on reserve value, to Depletable Units ("DUs"), which consolidate into Cash Generating Units ("CGUs").
 - Depletion will be calculated at the DU level with the option of using proved or proved plus probable reserves as a base.
 - A gain or loss must be calculated upon the sale of assets.
 - Impairment will be assessed at the CGU level. Impairment of Development assets occurs when the net book value exceeds the recoverable amount; the recoverable amount will likely be calculated using a discounted cash flow model. The excess of carrying amount over recoverable amount is expensed in the period of impairment.

- Development assets will be assessed for impairment on January 1, 2010 and thereafter, when indicators exist.
 - Goodwill: Impairment will be assessed annually at an operating segment level by combining the carrying amounts of E&E assets, Development assets and Goodwill and comparing this to the recoverable amount, which will likely be calculated using a discounted cash flow model. The excess of carrying amount over recoverable amount is expensed in the period of impairment.
- Asset Retirement Obligation: On January 1, 2010, any differences in the liability calculated under Canadian GAAP and IFRS (that may arise due to different discount rate or cost estimates), will be recorded to retained earnings. Thereafter, any changes in the liability shall be added to, or deducted from, the cost of the related asset in the current period.
 - Financial statement disclosures: The financial statements for March 31, 2011 will contain all IFRS accounting policies and disclosures, as well as reconciliations outlining the adjustments made from Canadian GAAP to IFRS on date of transition.
 - Business combinations: On January 1, 2010, the Company adopted the Canadian Handbook Section 1582, which is aligned with IFRS 3, therefore there will be no differences in this area.
 - Key metrics used by management, such as funds flow from operations, net debt, netbacks and reserve FD&A costs, will continue to be calculated on a consistent basis to monitor the business.
 - First-Time Adoption of IFRS (IFRS 1): IFRS 1 provides entities adopting IFRS for the first time with a number of optional exemptions and mandatory exceptions, in certain areas, to the general requirement for full retrospective application of IFRS. The Company plans to take advantage of optional exemptions in two main areas:
 - Value the opening cost of E&E and Development assets at the net book value determined under Canadian GAAP on January 1, 2010, rather than applying IFRS rules retrospectively. Development assets accumulated in the country cost centres will be allocated pro-rata to DUs using reserve volumes or reserve values.
 - Value past business combinations at the amounts determined under Canadian GAAP, rather than applying IFRS rules retrospectively.

The Company has commenced the conversion project and has established a functional steering committee consisting of managers from accounting, land, engineering, information technology, reservoir engineering, among others. Regular reporting is provided to our executive management team and to the Audit Committee of our Board of Directors.

Our project consists of four phases: impact assessment, planning & solution development, implementation and post implementation review.

We have completed the impact assessment which included a diagnostic of the major differences between current Canadian GAAP and IFRS. The area which will have the highest impact on the financial statements and require the highest implementation effort will be accounting for and assessing depletion and impairment of property, plant and equipment, as discussed above.

In the planning & solution development phase we developed a detailed plan, evaluated accounting system solution alternatives for depletion and exploration expenditures and defined a new hierarchy that aligned with our CGUs and DUs. Ongoing activities include training employees, researching and evaluating policy alternatives for low impact areas, and executing the required changes to disclosure controls and internal controls over financial reporting.

We are currently in the implementation phase. We completed the implementation of the new hierarchy in key systems including accounting, land, engineering and other operational systems to facilitate the preparation of financial statements in accordance with IFRS. We have also completed the December 31, 2009 development asset net book value allocation to DUs. Ongoing activities include implementing a new accounting system module to assist in accounting for exploration and development expenditures.

The post implementation review will include the compilation of IFRS compliant financial statements and making any required process changes. The Company will also continue to monitor the IFRS conversion efforts of many of its peers and will participate in any related industry initiatives, as appropriate.

Summary of Quarterly Results

(\$'000, except per share amounts) (5)	2010 Q1	2009				2008		
		Q4	Q3	Q2	Q1	Q4	Q3	Q2

- (1) Working capital is calculated as current assets less current liabilities, excluding risk management assets and liabilities, plus long term investments.
- (2) Capital expenditures include capital acquisitions. Capital acquisitions represent total consideration for the transactions including bank debt and working capital assumed, and commencing January 1, 2010, excluding transaction costs.
- (3) The second quarter of 2008 net loss, cash flow from operating activities and funds flow from operations include a realized derivative loss of \$34.5 million for the crystallization of various oil derivative contracts. The fourth quarter of 2008 net income and funds flow from operations include a bad debt provision of \$19.4 million.
- (4) The first quarter of 2009 net loss, cash flow from operating activities and funds flow from operations include a realized derivative gain of \$69.0 million for the crystallization of various oil derivative contracts. The second quarter of 2009, net loss, cash flow from operating activities and funds flow from operations include a realized derivative gain of \$3.5 million on the crystallization of various oil contracts and a bad debt provision of \$11.4 million.
- (5) Comparative amounts prior to July 2, 2009 are per trust unit.

The Company's oil and gas sales have increased due to several corporate and property acquisitions completed over the past two years and successful drilling program. Significant fluctuations in the Cdn\$ WTI benchmark price and corporate oil differentials have also driven the fluctuations in oil and gas sales.

The overall growth of the Company's asset base also contributed to the general increase in funds flow from operations.

Net income has fluctuated primarily due to unrealized derivative gains and losses on oil and gas contracts, which fluctuate with the changes in forward market conditions, along with fluctuations in the future income tax expense (recovery).

Capital expenditures fluctuated through this period as a result of timing of acquisitions and the development drilling program. The general increase in funds flow from operations and cash flow from operating activities throughout the last eight quarters has allowed the Company to maintain stable monthly dividends.

Internal Control Update

Crescent Point is required to comply with Multilateral Instrument 52-109 "Certification of Disclosure in Issuers' Annual and Interim Filings". The certificate requires that Crescent Point disclose in the interim MD&A any changes in Crescent Point's internal control over financial reporting that occurred during the period that has materially affected, or is reasonably likely to materially affect Crescent Point's internal control over financial reporting. Crescent Point confirms that no such changes were made to internal controls over financial reporting during the first quarter of 2010.

Outlook

Crescent Point's upwardly revised guidance for 2010 is as follows:

Production	Original Guidance	Revised Guidance
Oil and NGL (bbls/d)	50,500	51,250
Natural gas (mcf/d)	36,000	36,000
Total (boe/d)	56,500	57,250
Funds flow from operations (\$000)	811,000	839,000
Funds flow per share – diluted (\$)	3.73	3.86
Dividends per share (\$)	2.76	2.76
Payout ratio – per share – diluted (%)	74	72
Capital expenditures (\$000) ⁽¹⁾	450,000	625,000
Wells drilled, net	224	285
Pricing		
Crude oil – WTI (US\$/bbl)	75.00	81.00
Crude oil – WTI (Cdn\$/bbl)	78.95	82.65
Natural gas – Corporate (Cdn\$/mcf)	5.00	4.50
Exchange rate (US\$/Cdn\$)	0.95	0.98

(1) The projection of capital expenditures excludes acquisitions, which are separately considered and evaluated.

Additional information relating to Crescent Point, including the Company's renewal annual information form, is available on SEDAR at www.sedar.com.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2010 (UNAUDITED)

1. STRUCTURE OF THE BUSINESS

Organization Structure

The principal undertakings of Crescent Point Energy Corp. and its predecessor Crescent Point Energy Trust (collectively the "Company" or "Crescent Point") are to carry on the business of acquiring, developing and holding interests in petroleum and natural gas properties and assets related thereto through a general partnership and wholly owned subsidiaries.

Wild River Arrangement

On July 2, 2009, Crescent Point Energy Trust ("Crescent Point" or the "Trust") and Wild River Resources Ltd. ("Wild River") completed a plan of arrangement (the "Wild River Arrangement") whereby the Trust unitholders exchanged their trust units for common shares in Wild River, a private company with properties in the Lower Shaunavon area of southwest Saskatchewan, on a one-to-one basis thereby effectively converting the Trust into a corporation. In addition, pursuant to the Wild River Arrangement, the shares of Wild River were consolidated on a 0.1512 for one basis prior to the exchange, the Board of Directors and management team of Wild River were replaced with Crescent Point's existing Board of Directors and management team and Wild River changed its name to Crescent Point Energy Corp. ("Crescent Point" or the "Company"). As a result of the Wild River Arrangement, the Trust was dissolved and Crescent Point Energy Corp. received all of the assets and assumed all of the liabilities of the Trust.

After completion of the Wild River Arrangement, the former unitholders of the Trust owned approximately 97 percent of the Company and the former shareholders of Wild River owned approximately 3 percent. In accordance with Canadian generally accepted accounting principles ("GAAP"), the Wild River Arrangement was accounted for as a reverse take-over, whereby the Trust was deemed to be the acquirer of Wild River. These consolidated financial statements have been prepared on a continuity of interest basis, which recognizes Crescent Point Energy Corp. as the successor entity to the Trust. As a result, in these and future financial statements, Crescent Point will refer to common shares, shareholders and dividends which were formerly referred to as units, unitholders and distributions under the trust structure. Comparative amounts in these and future financial statements will reflect the history of the Trust.

2. SIGNIFICANT ACCOUNTING POLICIES

These interim consolidated financial statements of the Company have been prepared by management in accordance with Canadian GAAP and follow the same accounting policies as the most recent annual audited financial statements, except as described below. The specific accounting policies used are described in the annual audited consolidated financial statements in the Company's 2009 Annual Report. All amounts reported in these statements are in Canadian dollars.

3. CHANGES IN ACCOUNTING POLICIES

As of January 1, 2010, the Company adopted the following CICA Handbook standards:

- "Business Combinations", Section 1582, which replaces the previous business combinations standard. The standard requires assets and liabilities acquired in a business combination, contingent consideration and certain acquired contingencies to be measured at their fair values as of the date of acquisition. In addition, acquisition related and restructuring costs are recognized separately from the business combination and are included in the statement of operations. The adoption of this standard impacts the accounting treatment of business combinations entered into after January 1, 2010.
- "Consolidated Financial Statements", Section 1601, which together with Section 1602 below, replace the former consolidated financial statements standard. Section 1601 establishes the requirements for the preparation of consolidated financial statements. The adoption of this standard has had no material impact on Crescent Point's financial statements.
- "Non-controlling Interests", Section 1602, which establishes the accounting for a non-controlling interest in a subsidiary in consolidated financial statements subsequent to a business combination. The standard requires a non-controlling interest in a subsidiary to be classified as a separate component of equity. In addition, net earnings and components of other comprehensive income are attributed to both the parent and non-controlling interest. The adoption of this standard has had no material impact on Crescent Point's financial statements.

The above CICA Handbook sections are converged with International Financial Reporting Standards ("IFRS"). Crescent Point will be required to report its results in accordance with IFRS beginning in 2011. The Company is currently assessing the impact of the convergence of Canadian GAAP with IFRS on Crescent Point's financial results of operations, financial position and disclosures.

4. LONG-TERM INVESTMENTS

a) Reliable Energy Ltd.

In October 2009, the Company purchased 32.2 million common shares in Reliable Energy Ltd. The investment is classified as held-for-trading and is marked to market with the resulting gain or loss being recorded in the statement of operations. The investment is recorded at fair value which is \$5.5 million more than the original cost of the investment.

b) Private Oil and Gas Company

In October 2009, the Company purchased 5.3 million common shares in a private oil and gas company for \$8.0 million. The investment is classified as available for sale and measured at cost.

c) Shelter Bay Energy Inc.

During the first quarter of 2008, the Company invested in Shelter Bay, a private oil company. At March 31, 2010, the Company's investment of \$200.4 million consisted of 173.9 million Class A Common Shares, representing an interest of 21 percent, plus the accumulated equity earnings of \$7.7 million.

Under the terms of the unanimous shareholders' agreement governing Shelter Bay (the "Shelter Bay USA"), the Company has a right to purchase all, but not less than all, of the shares of Shelter Bay not already owned by the Company (the "Call Right") at a price equal to the market value of the shares; the determination of market value is based on a defined calculation as outlined in the Shelter Bay USA. The Call Right is exercisable at (i) any time before April 1, 2011, provided that the proceeds from such a transaction (including cumulative distributions) would result in the initial investors in Shelter Bay receiving realized proceeds equal to at least two times the amount of the aggregate capital invested by the initial investors and Crescent Point in Shelter Bay, or (ii) any time on or after April 1, 2011 and on or before March 31, 2013.

Upon exercise of the Call Right, and acceptance by 66 2/3 percent or greater of the shares held by Shelter Bay shareholders (excluding Crescent Point), Crescent Point will have the right to acquire all of the Shelter Bay shares it does not own. In the event of acceptance by less than 66 2/3 percent of the shares held by Shelter Bay shareholders (excluding Crescent Point), Crescent Point shall have the right to purchase all of the assets (the "Asset Call Right") of Shelter Bay for 105 percent of the market value of the assets, as defined in the Shelter Bay USA.

In the event Crescent Point exercises its Call Right or Asset Call Right, Shelter Bay's Class B and C Common Share shareholders will be entitled to receive 100 percent of all proceeds from the sale transaction up to their original investment in Shelter Bay plus a 10 percent return on investment. Class A Common Share shareholders would then receive 100 percent of their original investment in Shelter Bay plus a 10 percent return on investment. Subsequent proceeds up to and until a 25 percent return on investment to all Shelter Bay Common Shareholders, would be shared on a pro rata basis by shareholders in accordance with the number of shares held by each shareholder. Following receipt of a 25 percent return on investment by all Shelter Bay Common Shareholders, the remaining proceeds would be shared 50 percent by Crescent Point and 50 percent by all Shelter Bay Common Shareholders on a pro rata basis.

As at March 31, 2010, no conditions exist which would require the Company to record a liability pursuant to the Shelter Bay USA.

Also under the Shelter Bay USA, between April 1, 2013 and September 30, 2013, certain Shelter Bay shareholders shall have a separate right to require that Crescent Point acquire all of the shares of Shelter Bay then owned by such shareholder (the "Put Right") for a purchase price equal to 85 percent of the market value of such shares; the determination of market value is based on a defined calculation as outlined in the Shelter Bay USA. If the Put Right is exercised, Crescent Point will be obligated to provide all of the other shareholders in Shelter Bay with a similar right to put their shares to Crescent Point on the same terms.

The purchase price for the Shelter Bay shares may be settled, at Crescent Point's election, in cash or the issuance of Crescent Point shares; however, the Shelter Bay shareholders shall have certain rights to receive their consideration for their Shelter Bay shares in the form of Crescent Point shares.

Given the terms of the Shelter Bay USA, there can be no assurance that Crescent Point will not be required to, or will not elect to purchase the shares of Shelter Bay not already owned by Crescent Point or the assets of Shelter Bay and further, there can be no assurance that Crescent Point will have the capital resources to satisfy such Call Right or Put Right or that it will be able to issue Crescent Point shares to Shelter Bay shareholders in association with the exercise of the Call Right or Put Right described herein, and which issuance may be dilutive to existing Crescent Point shareholders at such time.

Variable Interest Entity

Shelter Bay is considered a variable interest entity under CICA Accounting Guideline 15. However, the Company is not the primary beneficiary of this variable interest entity, and, accordingly, the Company accounts for its investment in Shelter Bay using the equity accounting method. Therefore, the Company has recorded its share of Shelter Bay's net income (loss) as an increase (decrease) to the Company's net income and as an increase (decrease) to the cost of its investment. The Company's maximum exposure to loss as a result of its involvement in Shelter Bay is approximately \$200.4 million, which includes the carrying value of the Company's investment.

Related Party Transactions

The following related party transactions occurred between Crescent Point and Shelter Bay during the first quarter of 2010:

Management and Technical Services Agreement – Crescent Point entered into a Management and Technical Services Agreement with Shelter Bay, effective January 11, 2008 through December 31, 2012, with both early termination and extension provisions. Crescent Point is responsible for managing, administering and operating the assets and business of Shelter Bay. The services are provided in exchange for a monthly management fee. The Company billed management fees to Shelter Bay of \$1.3 million for the first quarter of 2010 (2009 - \$0.8 million).

Farm-Out Agreement – Effective January 11, 2008, Crescent Point entered into a farm-out agreement with Shelter Bay. Under the agreement, Shelter Bay has the right to farm-in on 22 net sections of Viewfield Bakken lands owned by the Company. Shelter Bay is responsible for paying 100 percent of the capital costs and earns a 50 percent interest in production from the property, while the Company retains the other 50 percent production interest. During the three months ended March 31, 2010, Shelter Bay drilled 4 gross wells on lands farmed out by the Company.

Amounts Owning From / Due To – At March 31, 2010, Shelter Bay owed the Company \$7.5 million for joint venture billings and management fees. These receivables were collected by the Company at the end of April 2010.

5. OTHER RECEIVABLE

At March 31, 2010, the Company had investment tax credits of approximately \$12.6 million. The investment tax credits resulted from the Wild River Arrangement. The after tax benefit associated with investment tax credits is approximately \$9.3 million.

6. CAPITAL ACQUISITIONS AND DISPOSITIONS

a) Major Property Acquisitions and Dispositions

The combined impact on revenue of the below acquisitions is not material for pro-forma disclosure purposes. The Company recorded \$2.9 million of transaction costs related to asset acquisitions in general and administrative expense in the first quarter of 2010.

Penn West Assets

On January 15, 2010 Crescent Point completed the acquisition of certain assets in southwest Saskatchewan from Penn West Energy Trust. Total consideration paid included Crescent Point's 100 percent working interest in the Pembina Cardium play acquired through the Company's arrangement with TriAxon Resources Ltd., a 50 percent working interest in Crescent Point's Dodsland Viking play and \$440.1 million cash including interim adjustments. The net addition recorded to property, plant and equipment was \$443.6 million.

Southeast Saskatchewan Assets

On January 25, 2010 Crescent Point completed the acquisition of assets in southeast Saskatchewan for cash consideration of approximately \$28.7 million (\$30.7 million was allocated to property plant, plant and equipment).

Southwest Saskatchewan Assets

On March 23, 2010 Crescent Point completed the acquisition of assets in southwest Saskatchewan for cash consideration of approximately \$67.7 million (\$68.4 million was allocated to property, plant and equipment).

b) Minor Property Acquisitions and Dispositions

Minor property acquisitions, dispositions and purchase price adjustments during the three months ended March 31, 2010 amounted to additions to property plant and equipment of \$17.5 million (\$17.9 million was allocated to property, plant and equipment).

7. LONG-TERM DEBT

The following table reconciles long-term debt:

(\$000)	March 31, 2010	December 31, 2009
Bank credit facilities	804,919	519,127
Senior guaranteed notes		
CDN\$ 50.0 million (Matures March 24, 2015)	50,000	-
US\$ 37.5 million (Matures March 24, 2015)	38,085	-
US\$ 67.5 million (Matures March 24, 2017)	68,553	-
US\$ 155.0 million (Matures March 24, 2020)	157,418	-
Total long-term debt	1,118,975	519,127

a) Bank Credit Facilities

The Company has a syndicated unsecured credit facility with twelve banks and an operating credit facility with one Canadian chartered bank. During the fourth quarter of 2009, the amount available under the combined credit facilities was increased to \$1.6 billion.

The credit facilities bear interest at the prime rate plus a margin based on a sliding scale ratio of the Company's debt to EBITDA, adjusted for certain non-cash items. The facilities mature in May 2011 and are subject to a review on annual basis. The credit facilities constitute a revolving facility for a 364 day term which is extendible annually for a further 364 day revolving period. The credit facilities have covenants based on the ratios of debt to EBITDA and debt to capital, adjusted for certain non-cash items; the Company is in compliance with all debt covenants at March 31, 2010.

The Company has letters of credit in the amount of \$3.5 million outstanding at March 31, 2010.

The Company manages its credit facilities through a combination of bankers' acceptance loans and interest rate swaps.

b) Senior Guaranteed Notes

On March 24, 2010 the Company closed a private offering of senior guaranteed notes raising gross proceeds of US\$260.0 million and CDN\$50.0 million. The notes are unsecured and rank pari passu with the Company's bank credit facilities and carry a bullet repayment on maturity. The terms and rates of the Company's outstanding senior guaranteed notes are detailed below:

Principal	Coupon Rate	Interest Payment Dates	Maturity Date
CDN\$50,000,000	4.92%	September 24 and March 24	March 24, 2015
US\$37,500,000	4.71%	September 24 and March 24	March 24, 2015
US\$67,500,000	5.48%	September 24 and March 24	March 24, 2017
US\$155,000,000	6.03%	September 24 and March 24	March 24, 2020

Concurrent with the issuance of the US\$260.0 million senior notes on March 24, 2010, the Company entered into cross currency and interest rate swaps ("CCIRS") with a syndicate of financial institutions. Under the terms of the swaps, the US dollar amount of the notes was fixed for purposes of interest and principal repayments at a notional amount of CDN\$265.5 million. See additional information in Note 15 – "Financial Instruments and Risk Management".

8. ASSET RETIREMENT OBLIGATIONS

The following table reconciles the asset retirement obligation:

(\$000)	2010	2009
Asset retirement obligations, beginning of period	139,365	68,754
Liabilities incurred	1,725	119
Liabilities acquired through capital acquisitions	6,398	587
Liabilities settled	(681)	(820)
Accretion expense	2,787	1,383
Asset retirement obligations, end of period	149,594	70,023

9. SHAREHOLDERS' CAPITAL

Crescent Point has an unlimited number of common shares authorized for issuance.

	Number of shares	Amount (\$000)
Common shares, January 1, 2010	209,389,932	4,803,759
Issued on exercised restricted shares ⁽¹⁾	204,694	2,983
Issued pursuant to the dividend reinvestment plans	1,515,611	55,395
Common shares, March 31, 2010	211,110,237	4,862,137
Cumulative share issue costs	-	(93,993)
To be issued pursuant to dividend reinvestment plans	758,631	28,856
Total shareholders' capital, March 31, 2010	211,868,868	4,797,000

(1) The amount of shares issued on exercise of restricted shares is net of employee withholding taxes.

10. CAPITAL MANAGEMENT

The Company's capital structure is comprised of shareholders' equity, long-term debt and working capital. The balance of each of these items is as follows:

(\$000)	March 31, 2010	December 31, 2009
Long-term debt	1,118,975	519,127
Working capital ⁽¹⁾	(144,113)	(148,190)
Net debt	974,862	370,937
Shareholders' equity	3,958,532	3,978,478
Total capitalization	4,933,394	4,349,415

(1) Working capital is calculated as current assets less current liabilities, excluding risk management assets and liabilities, plus long-term investments.

Crescent Point's objective for managing capital is to maintain a strong balance sheet and capital base to provide financial flexibility, stability to dividends and to position the Company for future development of the business. Ultimately, Crescent Point strives to maximize long-term stakeholder value by ensuring the Company has the financing capacity to fund projects that are expected to add value to stakeholders and distribute any excess cash that is not required for financing projects.

Crescent Point manages and monitors its capital structure and short term financing requirements using a non-GAAP measure, the ratio of net debt to funds flow from operations. Net debt is calculated as current liabilities plus long-term debt less current assets, excluding risk management liabilities and assets, plus long-term investments. Funds flow from operations is calculated as cash flow from operating activities before changes in non-cash working capital, transaction costs and asset retirement expenditures. Crescent Point's objective is to maintain a net debt to funds flow from operations ratio of approximately 1.0 times. This metric is used to measure the Company's overall debt position and measure the strength of the Company's balance sheet. Crescent Point monitors this ratio and uses this as a key measure in making decisions regarding financing, capital spending and dividend levels.

Crescent Point strives to provide stability to its dividends over time by managing risks associated with the oil and gas industry. To accomplish this, the Company maintains a conservative balance sheet with significant unutilized lines of credit and actively hedges commodity prices using a 3½ year risk management program and hedging up to 65 percent of after royalty volumes using a portfolio of swaps, collars and put option instruments.

Crescent Point is subject to certain financial covenants in its credit facility agreements and is in compliance with all financial covenants as of March 31, 2010.

11. RESTRICTED SHARE BONUS PLAN

The Company has a Restricted Share Bonus Plan. Under the terms of the Restricted Share Bonus Plan, the Company may grant restricted shares to directors, officers, employees and consultants. Restricted shares vest at 33 1/3 percent on each of the first, second and third anniversaries of the grant date. Restricted shareholders are eligible for monthly dividends on their restricted shares, immediately upon grant.

A summary of the changes in the restricted shares outstanding under the plan is as follows:

Restricted shares, January 1, 2010	2,308,844
Granted	2,066,980
Exercised	(296,148)
Forfeited	(408)
Restricted shares, March 31, 2010	4,079,268

The Company calculated total stock-based compensation of \$19.9 million (2009 - \$21.2 million), of which \$4.5 million (2009 - nil) was capitalized.

A summary of the changes in the contributed surplus is as follows:

(\$000)	
Contributed surplus, January 1, 2010	38,029
Stock-based compensation	19,934
Exercised restricted shares	(6,583)
Forfeited restricted shares	(10)
Contributed surplus, March 31, 2010	51,370

12. DEFICIT AND ACCUMULATED OTHER COMPREHENSIVE INCOME

The deficit balance is composed of the following items:

(\$000)	
Accumulated earnings	571,680
Accumulated dividends	(1,460,613)
Deficit, March 31, 2010	(888,933)

The accumulated other comprehensive loss balance is composed of the following items:

(\$000)	
Accumulated other comprehensive loss, January 1, 2010	(223)
Cumulative translation adjustment	(682)
Accumulated other comprehensive loss, March 31, 2010	(905)

13. PER SHARE AMOUNTS

The following table summarizes the weighted average shares used in calculating net income per share:

	Three months ended March 31	
	2010	2009
Weighted average shares ⁽¹⁾	210,007,158	136,436,177
Dilutive impact of restricted shares ⁽¹⁾	3,494,591	2,391,260
Dilutive shares ⁽¹⁾	213,501,749	138,827,437

(1) Comparative amounts presented are trust units.

14. FOREIGN EXCHANGE

(\$000)	Three months ended March 31	
	2010	2009
Realized		
Foreign exchange gain	228	-
Unrealized		
Foreign exchange gain on translation of U.S. dollar denominated senior notes	1,156	-
Other foreign exchange loss	(12)	-
Foreign exchange gain	1,372	-

The U.S. dollar denominated senior guaranteed notes are exposed to foreign currency fluctuations and are translated into Canadian dollars at the exchange rate in effect at the balance sheet date.

15. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

a) Carrying Value and Fair Value of Financial Instruments

The Company's financial assets and liabilities are comprised of accounts receivable, investments in marketable securities, long-term investments, reclamation fund, risk management assets and liabilities, accounts payable and accrued liabilities, cash dividends payable and long-term debt. Risk management assets and liabilities arise from the use of derivatives.

Accounts Receivable and Reclamation Fund

Accounts receivable and reclamation fund are classified as loans and receivables which are reported at amortized cost. At March 31, 2010 and December 31, 2009 the carrying value of accounts receivable approximated their fair value.

Investments in Marketable Securities

Marketable securities with a quoted price in an active market are classified as held-for-trading and are reported at fair value, with changes in fair value recorded in equity and other income. During the three months ended March 31, 2010 the Company recorded an unrealized loss on marketable securities of less than \$0.1 million. At March 31, 2010 the Company reported investments in marketable securities at a fair value of \$1.1 million (December 31, 2009 - \$1.1 million).

Long-term investments

Long-term investments with a quoted price in an active market are classified as held-for-trading and are reported at fair value, with changes in fair value recorded in equity and other income. During the three months ended March 31, 2010 the Company recorded an unrealized loss on long-term investments of \$5.1 million. At March 31, 2010 the Company reported long-term investments in public companies at a fair value of \$10.3 million (December 31, 2009 - \$15.4 million).

Long-term investments without a quoted market price in an active market, excluding the Company's equity investment in Shelter Bay, are reported at cost unless an other than temporary impairment exists. At March 31, 2010 the Company reported long-term investments in private companies, excluding the Company's investment in Shelter Bay, at cost of \$8.0 million (December 31, 2009 - \$8.0 million).

Accounts Payable and Accrued Liabilities and Cash Dividends Payable

Accounts payable and accrued liabilities and cash dividends payable are classified as other financial liabilities and are reported at amortized cost. At March 31, 2010 and December 31, 2009 the carrying value of these accounts approximated their fair values.

Long-term debt

Bank Credit Facilities

The bank credit facilities are classified as other financial liabilities and are reported at amortized cost. At March 31, 2010 and December 31, 2009 the carrying value approximated their fair value.

Senior Guaranteed Notes

The senior guaranteed notes, which are classified as other liabilities, are carried at their amortized cost and translated to Canadian dollars at the period end exchange rate. The following table details the amortized cost of the notes and their fair values expressed in Canadian dollars:

Senior Guaranteed Notes Principal (\$000)	Reported Amortized	
	Cost Cdn\$	Fair Value Cdn\$
Cdn\$50,000	50,000	49,912
US\$37,500	38,085	38,203
US\$67,500	68,553	68,553
US\$155,000	157,418	157,418
	314,056	314,086

Risk Management Assets and Liabilities

Risk management assets and liabilities arise from the use of derivatives. The Company has assessed the relative inputs used in the determination of the fair value of all its derivative financial instruments and has determined that a fair value classification of Level 2 is appropriate for each of the instruments. A level 2 assignment is appropriate where observable inputs other than quoted prices are used in the fair value determination. The Company's derivative financial instruments are classified as held-for-trading and are reported at fair value with changes in fair value recorded through the statement of operations.

The following table summarizes the fair value as at March 31, 2010 and the change in fair value for the period ended March 31, 2010.

(\$000)	
Risk management asset, January 1, 2010	5,520
Unrealized mark-to-market gain	10,957
Risk management asset, March 31, 2010	16,477
Less: current risk management asset, March 31, 2010	(6,849)
Long term risk management asset, March 31, 2010	9,628

Risk management liability, January 1, 2010	62,323
Unrealized mark-to-market gain	(1,308)
Risk management liability, March 31, 2010	61,015
Less: current risk management liability, March 31, 2010	(27,425)
Long term risk management liability, March 31, 2010	33,590

The physical power contracts have not been marked to market as the power acquired is for the Company's own use. The unrealized loss on the physical contracts at March 31, 2010 is \$1.3 million.

b) Risks Associated with Financial Assets and Liabilities

The Company is exposed to financial risks from its financial assets and liabilities. The financial risks include market risk relating to commodity prices, interest rates and foreign exchange rates as well as credit and liquidity risk.

Market Risk

Market risk is the risk that the fair value or future cash flows of a derivative will fluctuate because of changes in market prices. Market risk is comprised of commodity price risk, interest rate risk and foreign exchange risk as discussed below.

Commodity Price Risk

The Company is exposed to commodity price risk on crude oil and natural gas revenues as well as power on electricity consumption. As a means to mitigate the exposure to commodity price volatility, the Company has entered into various derivative agreements. The use of derivative instruments is governed under formal policies and is subject to limits established by the Board of Directors.

Crude oil – To partially mitigate exposure to crude oil commodity price risk, the Company enters into option contracts and swaps, which manage the Cdn\$ WTI price fluctuations.

Natural gas – The Company has partially mitigated natural gas commodity price risk by entering into AECO natural gas swaps, which manage the AECO natural gas price fluctuations.

Power – To partially mitigate exposure to electricity price changes, the Company has entered into swaps and fixed price physical delivery contracts which fix the power price.

The following table summarizes the sensitivity of the fair value of the Company's risk management positions as at March 31, 2010 to fluctuations in commodity prices, with all other variables held constant. When assessing the potential impact of these commodity price changes, the Company believes 10 percent volatility is a reasonable measure. Fluctuations in commodity prices potentially could have resulted in unrealized gains (losses) impacting net income before tax as follows:

(\$000)	Impact on Net Income Before Tax Three months ended March 31, 2010	
	Increase 10%	Decrease 10%
Crude oil price	(107,590)	110,638
Natural gas price	(3,917)	3,917

Interest Rate Risk

The Company is exposed to interest rate risk on bank indebtedness to the extent of changes in the prime interest rate. For the quarter ended March 31, 2010, a one percent increase or decrease in the interest rate on floating rate debt would have amounted to a \$1.3 million impact on before-tax net income.

The Company partially mitigates its exposure to interest rate changes by entering into both interest rate swap and bankers' acceptance transactions. The following sensitivities show the resulting unrealized gains (losses) and the impact to before-tax net income of the respective changes in the applicable forward interest rates as at March 31, 2010, with all other variables held constant:

(\$000)	Impact on Net Income Before Tax Three months ended March 31, 2010	
	Increase 10% in forward interest rates	Decrease 10% in forward interest rates
Interest rate swaps	2,379	(2,380)

Foreign Exchange Risk

Fluctuations in the exchange rates between the U.S. and Canadian dollar can affect the Company's reported results. The Company's functional and reporting currency is Canadian dollars. The Company is exposed to foreign exchange risk in relation to its U.S. dollar denominated senior guaranteed notes and in relation to its crude oil sales.

Concurrent with the issuance of the US\$260.0 million senior guaranteed notes on March 24, 2010, the Company entered into a cross currency interest rate swap with a syndicate of financial institutions. Under the terms of the swap, the amount of the notes was fixed for purposes of interest and principal payments at a notional amount of CDN\$265.5 million.

To partially mitigate the foreign exchange risk relating to crude oil sales the Company has fixed crude oil contracts to settle in Cdn\$ WTI.

The following sensitivities show the resulting unrealized gains (losses) and the impact to before-tax net income of the respective changes in the period end and applicable forward foreign exchange rates at March 31, 2010 with all other variables held constant:

(\$000)	Exchange Rate	Impact on Net Income Before Tax	
		Three months ended March 31, 2010	
		Increase 10% in Cdn\$ relative to US\$	Decrease 10% in Cdn\$ relative to US\$
Translation of U.S. dollar denominated senior notes	Period End	26,406	(26,406)
Cross currency interest rate swap	Forward	(32,098)	32,098

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. A substantial portion of the Company's accounts receivable are with customers in the oil and gas industry and are subject to normal industry credit risks. The Company monitors the creditworthiness and concentration of credit with customers of its physical oil and gas sales. The Company is authorized to transact derivative contracts with counterparties rated A (or equivalent) or better, based on the lowest rating of the three ratings providers. Should one of the Company's financial counterparties be downgraded below the A rating limit, the Chief Financial Officer will advise the Audit Committee and provide recommendations to minimize the Company's credit risk to that counterparty. The maximum credit exposure associated with accounts receivable and risk management assets is the total carrying value and the maximum exposure associated with the derivative instruments approximates their fair value.

To further mitigate credit risk associated with its physical sales portfolio, Crescent Point has secured credit insurance from a global credit insurance provider. This policy provides credit coverage for approximately 65 percent of the Company's physical sales portfolio. Crescent Point believes this insurance policy is a prudent addition to its formal Credit Policy and its detailed credit processes and controls.

Liquidity Risk

The timing of cash outflows relating to the financial liabilities is outlined in the table below:

(\$000)	1 year	2 years	3 years	> 3 years	Total
Accounts payable and accrued liabilities	240,899	-	-	-	240,899
Cash dividends payable	19,699	-	-	-	19,699
Risk management liabilities	27,425	20,386	4,240	8,964	61,015
Long-term debt	-	804,919	-	314,056	1,118,975

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company manages its liquidity risk through cash and debt management. As disclosed in Note 10, Crescent Point targets a net average debt to funds flow from operations ratio of approximately 1.0 times.

In managing liquidity risk, the Company has access to a wide range of funding at competitive rates through capital markets and banks. At March 31, 2010, the Company had available unused borrowing capacity on bank credit facilities of approximately \$795.1 million. Crescent Point believes it has sufficient funding to meet foreseeable borrowing requirements.

Included in the Company's bank credit facilities of \$804.9 million at March 31, 2010 are obligations of \$750.0 million of bankers' acceptances, obligations of \$57.6 million for borrowings under the operating and syndicated prime loans, partially offset by prepaid interest on banker's acceptances of \$2.7 million. These amounts are fully supported and management expects that they will continue to be supported by revolving credit and loan facilities that have no repayment requirements other than interest.

c) Derivative Contracts

The Company entered into fixed price oil, gas, power, cross currency interest rate and interest rate contracts to manage its exposure to fluctuations in the price of crude oil, gas, power, and interest on debt.

The following is a summary of the derivative contracts in place as at March 31, 2010:

Financial WTI Crude Oil Derivative Contracts - Canadian Dollar⁽¹⁾						
Term	Volume (bbls/d)	Average Swap Price (\$Cdn/bbl)	Average Collar Sold Call Price (\$Cdn/bbl)	Average Collar Bought Put Price (\$Cdn/bbl)	Average Bought Put Price (\$Cdn/bbl)	Average Put Premium (\$Cdn/bbl)
2010 April - December	22,250	83.14	95.74	78.88	81.61	7.82
2011	15,500	78.84	105.60	83.32	80.80	11.35
2012	8,750	86.99	100.04	79.85	-	-
2013 January - June	4,500	91.55	97.80	81.33	-	-

(1) The volumes and prices reported are the weighted average volumes and prices for the period.

Financial AECO Natural Gas Derivative Contracts – Canadian Dollar		
Term	Average Volume (GJ/d)	Average Swap Price (\$Cdn/GJ)
2010 April - December	9,778	5.81
2011	9,000	5.97
2012	8,000	5.98
2013 January - March	3,000	5.27

Financial Interest Rate Derivative Contracts – Canadian Dollar			
Term	Contract	Notional Principal (\$Cdn)	Fixed Annual Rate (%)
April 2010 – November 2010	Swap	75,000,000	4.35
April 2010 – November 2010	Swap	50,000,000	1.97
April 2010 – June 2011	Swap	75,000,000	3.89
April 2010 – May 2014	Swap	50,000,000	2.87
April 2010 – May 2014	Swap	25,000,000	3.33
April 2010 – May 2014	Swap	25,000,000	2.69
January 2011 – January 2014	Swap	50,000,000	3.58
June 2011 – June 2014	Swap	50,000,000	3.67

Financial Cross Currency Interest Rate Derivative Contract – Canadian Dollar					
Term	Contract	Receive Notional Principal (\$US)	Fixed Annual Rate (US %)	Pay Notional Principal (\$Cdn)	Fixed Annual Rate (Cdn %)
March 2010 – March 2015	Swap	37,500,000	4.71	38,287,500	5.24
March 2010 – March 2017	Swap	67,500,000	5.48	68,917,500	5.89
March 2010 – March 2020	Swap	155,000,000	6.03	158,255,000	6.45

Concurrent with the issuance of the US\$260.0 million senior guaranteed notes on March 24, 2010, the Company entered into a CCIRS with a syndicate of financial institutions. Under the terms of the swap, the Company pays fixed interest and principal amounts in Canadian dollars in exchange to receive fixed interest and principal amounts in U.S. dollars; these U.S. dollar proceeds will be used to settle the senior guaranteed note obligations. As a result, the amount of the notes was fixed for purposes of interest and principal repayments at a notional amount of CDN\$265.5 million.

Physical Power Contracts – Canadian Dollar			
Term	Contract	Volume (MW/h)	Fixed Rate (\$Cdn/MW/h)
April 2010 – December 2010	Swap	3.0	80.75
January 2011 – December 2011	Swap	3.0	55.25
January 2012 – December 2012	Swap	3.0	58.00

16. SUPPLEMENTAL CASH FLOW INFORMATION

(\$000)	Three months ended March 31	
	2010	2009
Cash taxes (recovered) paid	(34)	2,973
Cash interest paid	12,373	5,362

17. COMPARATIVE INFORMATION
